New Model – Stockman 400 Available Now

Ladies and Gentlemen

The new Stockman 400 model is available now in a great value package. It's more of what the farmer wants and less of what he can do without. Here are the main features...

Unique features

- Great low price
- Same size chassis as the Stockman 450.
- Independent "ride-in" suspension front and rear.
- Air/oil cooled and a carburettor for those who want simplicity and durability above anything else.
- Steel Racks front and rear
- Switchable 2WD / 4WD
- 50mm tow hitch receiver with 476kg towing capacity

See the remainder of this bulletin for the full list of features

Stockman 400 – New Model

2014 Stockman 400

Features

You're here to see what these machines are made of. We can tell you that you'll find a lot of good strong components and proven technology. The rest is in the details.

400 H1 4-Stroke Engine

This engine is nicknamed the "overachiever." For being a single-cylinder, air/oil-cooled, 366cc 4-stroke, this middleweight packs a hefty punch.

Stockman 400 – New Model

Ride-In Suspension

To achieve better cornering we lowered the centre of gravity, accomplished with our Ride-In suspension. To accomplish this we also lowered the profile and seat design without sacrificing ground clearance and suspension travel. Double A-arms reduce deflections during cornering, resulting in ultra-responsive steering.

Digital Gauge

The digital gauge features numerous critical operation information indicators: clock/hour meter, fuel level, mode button, set/reset button, odometer/trip, gear position, speedometer/tachometer, needle display, differential lock, drive select, high beam, battery condition, temperature and oil pressure.

Stockman 400 – New Model

Kenda Pathfinder Tires & Powder-Coated Steel Wheels

The Kenda® Pathfinder tire is durable and reliable, and will take you anywhere you want to go, confidently.

On-The-Fly 2WD/4WD

You're in control. When the going gets aggressive, flip a switch and you're in 4WD.

Stockman 400 – New Model

Rear 2-Inch Receiver

You'll be using your ATV every chance you get. So we outfitted it with a stout 50mm rear receiver, just like the one on your ute or car. Gone are the days of multiple hitches. Hook up your trailer and get the work done.

Front & Rear Steel Racks

Our racks are steel, not plastic. They're strong, durable and are rated for 34kg. carrying capacity the front, and 68kg. on the rear.
