## 2014 Wildcat Trail Arrives at a New Price Entry Point!

28-May-14

The all new Wildcat Trail and Wildcat Trail XT have arrived in Australia and are ready to roar. The "Trail" is an entry point into the recreational arena with a new 700cc Parallel twin engine featuring fuel injection and an automatic transmission and priced at an MLP of \$17,990 for the Trail and \$18,990 for the Trail XT. Designed for recreation but with a number of "farm friendly" features (see below).

The Wildcat Trail has received an unprecedented market response since its US debut earlier this year. During the design process of this exciting new vehicle, Arctic Cat set the bar high with explicit focus on bringing a product to market that was superior in all product categories within this competitive segment. The new Wildcat Trail does just that!

The new Wildcat Trail brings with it these defining attributes that you can help your customers understand.

### Fun Features – On both Trail and Trail XT

- **700cc Liquid cooled, parallel twin with EFI** - Most horsepower and best performance in class! +60 HP & Rapid Response TEAM Clutch
- **1270 wide & 454 kg light** - Fits in many pick-ups and flat-top trays and least costly trailers.
- **Suspension** - Premium Fox nitrogen gas shocks with sway bars front and rear.
- **Low Center of Gravity** - Industry leading handling just like it's big brother! 75mm lower seat height than the competition without compromising ground clearance = unmatched rider experience!

### Work Features – On both Trail and Trail XT

- 2" receiver at rear
- 680kg towing capacity
- 135kg cargo in rear tub

### Special features - Wildcat Trail XT only

- Alloy wheels
- Colour matched seats
- Automotive style painted finish

It's great value and a great package. Get your orders in now using the attached order form.

Best Regards
